Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Retention Rate	Retention rate is calculated by comparing majors from the previous year, who did not graduate, and persisted to the next fall.
Job Placement Rate	Bachelor’s degrees: Job placement rate is calculated by determining if students from the previous year’s graduates are currently employed in their field of training. The percentage is based only on students where we were able to find the information through self-reporting or LinkedIn. Master’s degree: The total number of students admitted in all six sessions of 2016-2017 less any student (regardless of admit date) who withdrew, were dismissed, or are inactive will be at least 90%. Students graduating from the program are not included in this calculation.
