

Bachelor of Science in Accounting
Post-Bachelor's Certificate in Accounting
Master of Science in Business Communication - Accounting Concentration

The successful completion of the Uniform CPA Exam is a requirement in all United States jurisdictions in order to obtain licensure as a CPA. Other requirements, such as education and experience requirements, may vary for each state or jurisdiction.

The Bachelor of Science in Accounting (BSA) and the Post-Bachelor's Certificate in Accounting (CERT-ACCT) meet the educational requirements to sit for the Uniform CPA Exam in all states and territories except Arkansas, Illinois, Kansas, Nebraska, North Mariana Islands, Ohio, Oklahoma, Oregon, Puerto Rico, South Dakota, Texas, Washington, and Wisconsin. The BSA and the CERT-ACCT do not meet the requirements for full licensure as requirements for full licensure can include but are not limited to 150 total semester hours, post-graduation examinations, reference checks, and/or criminal background checks. Since a Bachelor's degree in accounting is required to enroll in the Master of Science in Business Communication – Accounting Concentration (MSBC-ACCT), the MSBC-ACCT alone does not meet the educational requirements to sit for the Uniform CPA Exam in all states and territories.

Spalding University strongly recommends that you inquire with your applicable licensing board to determine all of the educational and other requirements for licensure before enrolling in the program.
